Cedarcrest High School

2008-2009 Profile

www.chs.riverview.wednet.edu

Cedarcrest High School is an excellent educational institution. Graduates have been admitted to some of the most prestigious universities in the country, while many of those who elected to enter the workforce immediately, are now leaders in their field of choice. Our scores on state and national assessments are comparative if not better than many of the larger surrounding school districts.

Our relatively small size, 865 students in the 2007-08 school year, enables teachers, support staff and administration to get to know your child as an individual. With this connection, we are better able to design programs, provide guidance and to meet the varied needs of our students.

Cedarcrest opened its doors in 1993. The school was recognized as a National Blue Ribbon School largely due to its innovative and responsive programs. Since then, these programs have continued to evolve and grow to accommodate the needs of our students and to respond to changing state and national requirements.

As a member of the Cascade Conference, students have the opportunity to participate in a wide variety of inter-scholastic athletic teams and competitions as well as the opportunity to participate in many inter-high student leadership activities.

At Cedarcrest High School, all students have the opportunity to grow, develop and to reach for opportunities. As a staff we are committed to providing our students with a challenging and relevant curriculum in an environment that is respectful, inclusive and responsive. Good things happen at Cedarcrest High School.

Sincerely,

Clarence Lavarias

**"Building Bridges
 to the Future"**

Mission Statement

To provide all students the opportunity to learn, grow and prepare for the challenges of the future.

Vision

Cedarcrest High School promotes the opportunity for all students to acquire the essential social, cultural, and academic skills necessary for success in the 21st century.

School Improvement Goals

2007-2008 School Improvement Goals are:

1. Curriculum: Develop, review, and revise curriculum to ensure alignment with the Essential Learning Requirements. Curriculum will be thorough, relevant, challenging, and engaging.
2. Assessment: Cedarcrest High School students will meet or exceed state and national average scores in all state and national assessments.

3. Environment: Reduce the number of unacceptable student behaviors and create an environment that promotes school pride, spirit, and respect for diversity.

Demographics

Enrollment	2006	2006	2007
	866	865	868
Average Class Size	24.5		
Ethnicity %	2005	2006	2007
Black	0.5	0.3	0.3
Asian	2.9	3.6	4.1

Facility Information

Cedarcrest is a 92,500 square-foot building that includes 37 classrooms, a counseling/career center, Learning Resource Center, three new-generation computer labs, gymnasium, locker room, music room, and a dining/kitchen facility. There is also a 335-seat theater used for both school and community performances.

All classrooms are equipped with at least one computer and one student work station, television, telephone, intra-school audio/visual connection. All classrooms will be equipped with mounted digital projection devices this year.

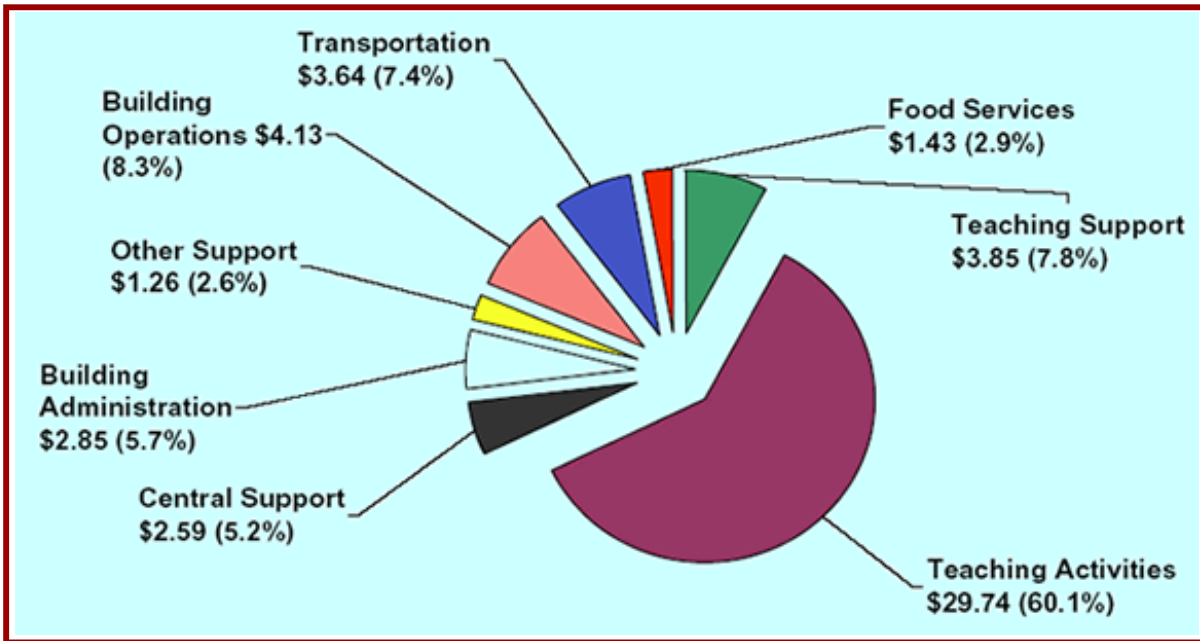

The new Cedarcrest multi-purpose physical education and athletic field was dedicated in the fall of 2002. With the passing of the new capital projects bond, the facility is undergoing major renovations and new construction to include a baseball field and seating, additional bleachers on the multi-purpose athletic field, improvements to the existing softball field, additional office space for school-based ancillary staff, remodeling of the existing gymnasium for additional seating, court, and classroom space. A new wrestling/dance room will be constructed, as well as the addition of a 2500-square-foot weight room.

Financial Resources

CHS operates on an average annual budget of approximately \$80,000 based on a full-time equivalent student enrollment of 825. Of these funds, 53% is distributed to individual departments for specific needs, and the balance is allocated for basic and operating support at the school level.

**Riverview's 2007-2008
Cost to Educate One Student for One Day \$49.47**

School Safety

Cedarcrest Administration, which includes the principal, assistant principal, and a dean-of-students, monitors the campus before, during, and after school. Teachers monitor the halls during breaks and passing time. The halls and outside of the building are equipped with video cameras to ensure students' safety and protect property.

Student discipline is addressed progressively, unless the violation is considered exceptional misconduct. A peer mediation program uses trained student mediators to resolve conflicts between students before it reaches administration. It is our hope that students will develop the self-confidence to address minor disagreements maturely by using peer interventions when possible. There is, however, zero tolerance for harassment and bullying. Should a student be a victim or if a student engages in bullying or harassing behaviors, the situation will be addressed promptly and in accordance with the district's Bullying and Harassment Policy by the school administration.

PTSA

The PTSA is an integral part of Cedarcrest High School. Besides fundraising, the PTSA provides financial grants for teachers and coaches to implement classroom and extracurricular activities that otherwise would not be possible. PTSA also provides scholarships for graduating seniors. The PTSA operates the school store with 100% of store profits going back to students in the form of teacher grants and student scholarships. The school store is always in need of parent volunteers to help with this endeavor. Besides the school store, the PTSA also runs the athletic food concessions. The concessions are manned by various student groups who share directly in the profits from these concessions. Last year, the PTSA donated approximately \$15,450 directly back to the school.

Music

Cedarcrest builds dedicated, educated musicians who challenge themselves and each other in positive ways. Cedarcrest music classes are safe places where students have fun while creating music of high quality. Musical ensembles include Jazz Band, Pep/Marching Band, Wind Ensemble, Jazz Choir, Chamber Choir, and Concert Choir and color guard. Cedarcrest also offers guitar class and history of music for non-performing music students.

Cedarcrest Music Department participates in fundraising opportunities and community events including parades, field shows, concerts, regional jazz festivals, and an annual Battle of the Bands. Since 1997, CHS Music has hosted Australian exchange students as a fundraiser and community outreach program.

RHYTHM Music Boosters (Riverview Helping Youth To Have Music) is a community-based organization dedicated to supporting Riverview student musicians. Our parent support organization assists in all levels of music education—from helping rent instruments, to repairing and purchasing much needed instruments and services. This highly-effective parent group writes grants, builds moral, and coordinates spectacular events like Battle of the Bands, Band Clinic, trips to Disneyland, and spring tours across our beautiful state.

CHS bands and choirs are always participating in local festivals and events. We are proud to attend yearly invitationals like Husky Band Day, the Edmonds Jazz Festival, and the Heritage Festivals throughout the west coast.

Class of 2009

Graduation Requirements

English	3.5 credits
Social Studies	3.5 credits
Mathematics	2.0 credits
Science	2.0 credits
PE and Health	2.0 credits
Occupational Education	1.0 credit
Fine Arts	1.0 credit
<u>Electives</u>	<u>6.0 credits</u>
Total Credits	21 credits

**Graduation and
Dropout rates**

Graduation Rate: Cedarcrest has the second highest graduation rate on the Eastside. Of those students who were enrolled at Cedarcrest, as of October 2007, less than one percent did not graduate with their class on time.

Dropout rate < 1%: The dropout rate consists of those students who have voluntarily left school after meeting state provisions for non-attendance and also, for those whose education status is unknown to the school district.

Technology

Technology is a major focus at Cedarcrest High School with district technology standards integrated into the curriculum. Cedarcrest has two fully equipped graphics arts and CAD labs. The student:computer ratio is 4:1. State of the art software classes are offered such as advanced video imaging, architectural design, and computer graphics. Students regularly use three computer labs for research and the completion of assignments.

The 2007 Technology Levy will provide for LCD projectors, speakers, display carts with document cameras, and laptops for every classroom.

Parents have the ability to monitor/access their students' progress through the use of online grades. All parents are given an access code which allows them to view their child's current grade, and gives them direct e-mail access to the teacher/counselor should there be questions or a need to arrange for conferences.

College Credit Through Career and Technical Education

In 2007-08, seventy-five students earned 362 college credits from the Bellevue Community College, Shoreline Community College, and Lake Washington Technical College.

These students and their parents saved over \$28,236 in tuition fees. Of the 75 students, 47 were 9th graders! Credits were earned in the following courses.
