

HOMEWORK
ROOM # 1

The general philosophy of homework in Room #1 is intended for a fun experience of sharing classroom learning at home. If at any time there is an illness or an important family occurrence then homework can be set aside. Also if the homework appears at all confusing simply put it aside until we can clarify information together. This table offers some suggestions and particular requirements. Sometimes there will be a very specific assignment and at other times it will follow a more open-ended discussion. ***ALWAYS read with your child, as it is the most important foundation to establish at this age.*** All homework can be turned in to the dinosaur area, math on Wednesdays, reading packets and or other work on Fridays.

Monday	Tuesday	Wednesday	Thursday	Friday
<p><i>Reading A to Z Packets</i></p> <p>You will receive a manila envelope with a story and a response sheet or worksheet</p> <p>Please read over material each night or every other night as repetition proves helpful</p> <p>Reading Packet is due back on Friday.</p> <p>If you want to be challenged or want a change just write me a note and put it in the manila envelope.</p> <p>Later in the year you will also have a list of words to learn each week for dictation.</p> <p>Put tennis shoes out to wear for PE ON TUES.</p>	<p><i>Mathematics</i></p> <ol style="list-style-type: none"> 1. Practice writing numbers 2. Learn the number words 3. If an assigned worksheet is sent home, complete it; if you have any questions just circle & put a question mark on it. <p>Or</p> <ol style="list-style-type: none"> 4. Create your own math word problem to solve. Print it neatly out; solve your problem with both drawings and number sentences. Put your name and date on the paper. 	<p><i>Writing</i></p> <ol style="list-style-type: none"> 1. Discuss what you are writing in class 2. Brainstorm other topics to write about in class 3. Write a short note to a family member, you can use sticky notes or your own paper. <p>Or</p> <ol style="list-style-type: none"> 4. Begin a letter to a family member that later you can mail 	<p><i>Theme</i> Science or Social Studies</p> <ol style="list-style-type: none"> 1. Set up a small experiment like in our sciencing units. 2. Write down your observations <p>Or</p> <ol style="list-style-type: none"> 3. Read a favorite science book <p>Or</p> <ol style="list-style-type: none"> 4. Talk about the geography of our community. 5. Find a piece of information or object to bring to share on Friday. 6. Put your sharing in your backpack 7. Put your reading packet in your backpack. 	<p><i>Reflection Time</i></p> <p>Spend time over the weekend pondering the week's learning.</p> <p>What worked?</p> <p>What did not work?</p> <p>How do I want to celebrate my successes? How can I reward myself?</p> <p>How can I make improvements?</p> <p><i>Relax and have a fun family weekend!</i></p>
